Hyderabad, India — LinkedIn: saipavan

Profile Summary

Final-year B.Tech (IoT) student skilled in Python, SQL, and Machine Learning with hands-on experience building predictive models and data analysis projects. Passionate about solving real-world problems using data and seeking an entry-level role in Python development, data analytics, or AI.

Education

Malla Reddy University, Hyderabad 8.38 2022 – 2026
Bachelor of Technology in Internet of Things (IoT)
Relevant Coursework: Machine Learning, Data Structures, DBMS.

TS Junior College, Nookapelli 8.38 2020 – 2022
Intermediate

Technical Skills

Programming Python, SQL.
Libraries Pandas, Numpy, Seaborn, Scikit_Learn
Concepts Data Structures, Data Pre-processing
Bi Tools Tableau.

Projects

Loan Approval Prediction Using Machine Learning

- Developed a machine learning model to predict loan approval outcomes using historical loan data.
- Performed data preprocessing, feature engineering, and hyperparameter tuning to improve model performance
- Achieved 87% accuracy on the test dataset and reduced false positive rate by 15% compared to the baseline model.
- Analyzed applicant demographics, credit scores, and financial history to support data-driven lending decisions.

Smart Smog – Air Pollution Monitoring System

- Designed a low-cost, Arduino-based air pollution monitoring system using MQ135 sensors.
- Enabled real-time air quality detection, alert generation, and health risk notifications.
- Empowered both users and authorities to monitor pollution levels and take preventive action for public safety.

BreastCare AI – Breast Cancer Risk Prediction App

- Developed machine learning and deep learning models (Logistic Regression, Random Forest, CNN with Transfer Learning) for breast cancer risk prediction
- Achieved 91% classification accuracy on validation data through preprocessing and model tuning.
- Integrated Explainable AI techniques (SHAP, LIME) to enhance transparency and support early risk assessment.

Certifications

- Python Programming by GeeksforGeeks
- Python Programming Essential by Coursera.
- Introducing Generative Ai with Aws By Udacity.
- Workshop on Advanced IOT by Technex's 24.

Languages

English, Telugu, Hindi
